SHERMAN AND HILL.

Fourth Day's Debate on the Cuban Question.

INTEREST AS GREAT AS EVER

The Mercenary Character of the Pending Resolution Opposed by Senator Hill and Upheid by Mr. Sherman-Several Small Bills Passed-Confested Election Cases Argued in the House.

Washington, March 13.—Senators Sherman and Hill were the conspicuous figures in the Cuban debate in the sevnte yesterday, the New York senator forcibly urging the mercennry character of the pending resolutions, while Mr. Sherman upheld them with another graphic arraignment of Spain and General Weyler. It was the fourth day of the debate on the conference report and yet there was no evidence of a near upproach to a final vote, although Mr. Sherman announced that he would press for a vote at the earliest moment. The gallaries continue to be crowded and yesterday showed no diminution of public interest.

Mr. Hill's opposition to the resolutions was confined to that feature which expressed the purpose of the United States to intervene to protect the legitimate interests of the United States. This. the senator declared, was an ignoble and contemptible attitude. It was plac-ing the cause of human liberty and patriotism on a very low plane, and he urged that the resolutions be defeated in order that they might be amended and the mercenary features eliminated.

Mr. Sherman's speech was mainly a reassertion of the views he presented when the senate resolutions were adop. ed. He declared that war in Cuba was flagrant and the evidences of it abundant. He insisted on his characterization of General Weyler as "the bufcher" but conceded that the Spanish minister Senor Dupny de Lome, had the tall right and the daty of controverting and explaining the statement either in or out of the state department. In the course of his speech Mr. Sherman para a glowing tribute to the patriotism and ficielity of President Cleveland and his readiness to uphold the the country's

At the conclusion of Mr. Sherman's remarks Mr. Morgan secured the floor, but yielded immediately in order that the debate on the Dupont election case could proceed. Mr. Pritchard (Rep., N. C.) addressed the senate in advocacy of the majority report in favor of seat-

ing Mr. Dupout. At the conclusion of his remarks the bill creating the art commission of the after Mr. Hoar had secured amendment striking out the proviso that artists and sculptors should not serve on the commission and that the appointers should be learned in literature and the

The senate then passed several more bills on the calendar, among which were: To permit owners of claims to iron and coal mines on forest reservations to perfect their title thereto and to protect a patent therefor.

At 5:35 the senate adjourned.

House Proceedings.

Washington, March 13.—In the house yesterday during the morning honr a bill was passed extending the time for completing a bridge by the Union Railway company across the Monongahela rivet.

On motion of Mr. Johnson (Rep. Ind.) a resolution was adopted by which the claim of Coleman, Republican of the Second Louisiana district, to the seat of Mr. Buck, Democrat, was decided in favor of the latter.

The Mr. Daniels (Dem., N. Y.) calles up the contested election case of Aldrich vs. Robbins, from the Fourth Alabama district in which the Republicans rec-

onnaended the seating of Aldrich. Three hours and a half, he said, were to be allowed on each side for argument. Mr. Moody (Rep., Mass.) spoke in behalf of Mr. Akhrich and Mr. Bartlett (Dem., N. Y.) for Mr. Robbius.

M. Royse (Rep., Ind.) closed the debute for the day with a speech in favor of seating Mr. Aldrich.

At 5:10 the house adjourned.

DELEGATE FROM ALASKA. Our Northwestern Territory May He Represented in Congress.

Washington, March 13.—The committee on territories of the house yesterday voted to report favorably to the house the bill introduced by Mr. Scranton of Pennsylvania for a delegate from Alaska. Under the bill the delegate is to hold his seat in congress on the same terms as the delegates from other terri-

A vigorous opposition to the bill was made by Mr. Perkins of lowa. He held that all information secured by the committee from Alaskan officials and ugents of the treasury showed existing conditious in Alaska did not wurrant a territorial form of government, and that statehood was not to be thought of for many years, if ever. The danger which the bill might bring, he said, was that the delegate would be named by the great commercial companies of Alaska. and be a representative of the interests of those companies rather than of the United States. The other members of the committee present voted for the bill.

BIG BLAZE IN BOSTON.

Searly Half a Million Dullars' Worth of Properly Hestroyed.

Boston, March 13.-The Pope Manufacturing company's building on Cohunbus avenue was completely gutted by fire, necessitating a general alarm shortly before 4 o'clock yesterday. The fire caused a loss of between \$350,00. and \$400,000. The block was a mag nificent five-story structure of brick. profusely ornamented with terra cotta trimmings.

The blaze started in the boiler room in the basement of the building and spread so rapidly that four ladies and two gentlemen who were taking riding lessons on the fifth floor had barly time to escape. R. W. Hinckley, private secretary to Mr. Albert Pope, and the janitor, W. P. Preston, were hemmed in by smoke and fire on the second floor and made their escape by ladders placed there by the firemen. In the building were 35 or 40 people, but they all got

out without injury.
The contents, which were completely rnined, consisted of 1,700 new wheels, 175 second hand wheels and about 20, 000 pieces of bicycle fitting, beside sev

eral thousand tires. The Youth's Companion building one of the most imposing structures in the city, which is separated from the burned building by a 15-foot alley, and the Hoffman House, a 7-story apartment house, across the street, were thoroughly drenched. The Hoffman House was for an hour in great danger as the strong northwest wind carried the flames nearly half way across the broad avenue. The loss to both buildings by water will aggregate \$10,000.

The fire was practically under control by 5 o'clock, but it was hours before a was entirely subdued.

The Pope company has a total loss on its stock and fixtures conservatively estimated at \$150,000, and \$200,000 on the building. The loss is fully covered by insurance, placed by John C. Paige of

ROME. March 13.-Advices received from Africa say that King Menclek' army is advancing slowly and has now reached Entisco, midway between Adowa and Adigrat. Communication with Kassal is unbroken. Osman Digma is now at Galu Sit.

General Baratieri has arrived at Massowa in a physicially and morally pros-trated condition. He admitted to a correspondent of The Tribuna that he had yielded to a rush impulse in making the attack which led to the disastrons defeat at Adowa. He also submitted that he had no direct orders from the government. He knew nothing of General Baldiserra coming at the time and therefore was not influenced by any question of amour propre, but solely by the difficulties of revictualling, which would have compelled a retreat and have opened a road to the Shoans. All of the generals, he said, were confident that even a partial victory would put as end to an untenable position and wend cause the Shoans to withdraw. The difficulties of the ground, he held, was cause, of the plans miscarrying. The deeply deplored the disaster, but ha nothing to reproach himself with, and was ready to meet any charges and to endure the end of the consequences of his misfortune.

STEAMER RIO DE JANEIRO SAFE. Buckner, 1. No election. She Had Run Out of Coal and Put Back lo Hanolulu.

SAN FRANCISCO, March 13. - The stemmship Alameda which arrived here yesterday afternoph from Australia, Samoa and Honolulu, brought news of the safe arrival of the missing steamship Rio de Jaueiro at Honolulu on March f. The Rio left this port 35 days ago for Yokohama and grave fears were entermined for her safety. Reinsurance of the ship and her enrgo had nlready begun.

According to the news received from Honolula bad weather and heavy west erly winds prevailed for several days after the Rio left San Francisco. For eight or nine days the gale was extreme ly severe, with the barometer falling al the time. On the 25th the coal supply ran short, and it was decided to turn around and make for Honolulu. The officers thought there was more chance of reaching Hondhuln than there was of making Yokohamu.

The state rooms aft were torn dow: and fede to the furnace to keep the steamer going. Even the mizzen mosthead had to come down, and go into the furnace. Finally land was sighted and the Rio arrived as stated. Beside the damage wrought to substitute coal the steamer sustained no injury whatever She took on 1,000 tons of coal and re sumed her voyage to the Orient the same night. Her passengers were not allowed to go ashore.

Everything Quiet but No United State Sepator Was Elected.

FRANKFORT, Ky., March 43. - An extra squad of police were marchee to the capitol yesterday to preserve order. Senators James and Walton, who had been unseated in the senate Wednesday in retaliation for the partisan onsting of Kunfman, Democrat, in the house, slipped into the house early, and before anybody was on guard. it being their object to sit quietly till the joint assembly convened at noon, when they would demand their right to vote for senator.

The house passed several bills, and the senate was also engage in routine business, but the proceedings were not watched with much interest. The members would sit in their seats only a short time, and then go take a bird'seye view of the growing crowd in the rotunda outside.

The police forced the crowd sur rounding the house door to go into the lower rotuuda just before the joint`ses sion was called.

The crowd downstairs extended out into the statehouse yard, and the push

and jam were terrible. At 12:05 Chairman Worthington called the joint assembly to order. At the call of the roll of the senators it seemed evident there was a dispositou on the part of the Republicans to break the quorum. The rollcall developed 130 the quorum. The roll of the quorum results and voting, necessary to a choice, 66. Bronston, Democrat, called for the reading of the journals. Ward, Republican, objected. WASHINGTON DEMOCRACY. Delegates Selected to the National Bento-

cralle Convention at Chicago. WASHINGTON, March 13.—The district Democracy held its convention yesterday to choose delegates to the national convention at Chicago. A "combine" slate was fixed inplembracing delegates from the several sections of the city and despite many vigorous efforts to break it went through with the exception of Edwin Forrest, who was beaten by George Killeen by three votes. The delegates to Chiengo are Robert E. Mattingly, Frank P. Morgan, John Boyle, William Holmcad, George Kil-

leen and E. L. Jordan. During the fight against the combine frequent direct charges were made that its members were hostile to the admin istration and were in favor of free silver but they succeeded in conducting their campaign without committing them selves, save in the general endorsement given the administration in the platform adopted. This platform indorsed the administration of Grover Cleveland particutarly the bold stand taken on the ${f Venezuclan\ question}$, the enunciation of the Monroe doctrine being declared a correct interpretation of true Americanism, expressed sympathy for those engaged in the battle for freedom in the island of Cuba, and cordially indorsed the expression of that sympathy contained in the joint resolutions of th senate and house.

The plank contained in the Demoeratic national platform of 4856 and directed against the Know Nothing party of that day, was put in the resolutions This declared that a political crusade in the nineteenth century against Catholic and foreign-born citizens is contrary to the genius of our institutions, and car not be too severely condenned.

There was a significant absence in the platform of any expression on the silver

question. The A. P. A. plank was not vigorons enough for Mr. Dennis Callaghan and he made a vigorous but musuccessful fight to have substituted for it a set of resolutions denonucing the A. P. A. it the bitterest language.

The endorsement of the administra tion was received with mingled cheers and hisses and evoked a hot anti-Cleve land speech from ex-Congressman Tur ner, who has been practicing law here since his retirement from active parties pation in Tammany Hall affairs.

HAWKINS' MURDERER.

Fuller Particulars of the Sad Tragedy at Flemingsburg-A New Theory.

Detective Britton, of Williamsburg, O. returned from Flemingsburg last evening. His bloodhounds were not successful in their efforts to run down the murderer of Thomas J. Hawkins, whose sad death has been mentioned. It is learned that the dogs followed a trail from the scene of the shooting to a barn near the outskirts of the town, but the Times-Democrat says they failed to point any definite suspicion upon anyone, and adds that there seems to be no definite theory as to the guilty party.

Fuller and more accurate details of the tragedy are thus given by the Times-Democrat: "After the fire of Monday morning the grocery store of Charles J. Sutton had to be guarded, as the back windows of the second floor were out and the elevator shaft was open from the

"The first night Mr. Sutton and Robert Jacobs stood guard, and some time in the latter part of the night they heard noises which convinced them that some one was on the metal roof of the onestory annex at the rear of the store and was either in or attempting to get into the second story, They ran out and raised an alarm which brought others to the scene, and the house was closely surrounded and watched till daylight, when a search revealed the fact that no one was to be found in the building. Tuesday night T. J. Hawkins, who had been clerking for Mr. Sutton, stood guard, with Mr. Jacobs for his companoin. Between 2 and 3 o'clock they heard noises which led them to believe some one was on the roof.

"After listening for some time they went out in the yard back of the store, Hawkins being in advance. It was quite dark and Hawkins could see, no one, but soon after stepping outside Hawkins fired his pistol in the air to frighten the supposed burglar, but almost immediately a shot rang out in response, as he thinks, from the roof of the one-story annex, and he at once felt that he had been shot. He fired two more shots before falling, and Jacobs fired three or four shots, though the latter was so excited that he does not clearl remember the exact order of the occurrences following the first shot. Hawkins staggered and fell to the ground, and in a moment called to Jacobs for help, saying: 'I'm shot in the leg.' Jacobs ran to him and lifted him up and found him bleeding from a wound under the left shoulder.

"The ball struck and lodged against or in the spinal column, completely paralyzing the body below that point. It also seems in its course to have penetrated the cavity, as internal bleeding was clearly apparent. Thursday morning he passed away. Thus perished as noble-hearted a young man as this city possessed. He was about thirty-four years of age and leaves a wife, nec Ioline Ashton, and one bright little daughter to mourn their irreparable loss. He was a member of the Fleming Lodge No. 30, I. O. O. Another theory advanced by some people is that the shooting was accidental, that in the excitement and the dark one of the shots from Jacob's pistol struck Hawkins. This was talked of at Flemingsburg yesterday.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasunt efforts—rightly directed. There is comfort in the knowledge that so many forms of siekness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Sympot Figs, promptly removes. That is why it is the only remoily with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it nets. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the gennine article, which is manufactured by the California Fig Syrnp Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

BAD TIMES?

Well, we should say so. Those Placks and Watches are too badly out of fix to be of ony use. They've lost their thue entirely. watches are for barry one of its are of one use. They've lost their time entirely, Yon'll lose your time, too, if yon're improvided with good Clorks and watches. We have a full supply of buth, all necurate time-keepers and in perfect order. Better Watches than ours are not manufactured. Whatever the price of any watch we earry, it's the best of its kind and a full value, Get a timepiece; get the best; get unrs.
